Sussex County community. 70% of public radio listeners say that a company's support of public radio has a positive influence on their decision to purchase that company's products or services.

which means your announcement is more likely to receive attention.

By sponsoring or underwriting our local public radio station, your name of company, it's location, products or services it provides and your telephone number will be mentioned on air during all live programs and hopefully in the very near future, 24 hours a day. Many people are turning to public radio because of its non commercial aspect and constant interruption of the music or programs they are listening to because of commercials. On public radio, the music or program is constant except for the times that sponsorships/underwriting is mentioned, and since there are only a few sponsorships announced, people are more apt to listen to the sponsorship ads.

#### NOTE

Your Sponsorship/Underwriting is so vitally important to help keep your local public radio on the air. We thank you and your listeners thank you. God bless you for helping support the only station that is providing uplifting christian programs in this entire area.
